

NUMAI W. ALYAMANI

Jeddah, Saudi Arabia | +966 53 232 5454 | me@numaialy.com | <https://www.numaialy.com/>

OBJECTIVE

Seeking a Data Analyst or AI Engineer role where I can apply my background in Artificial Intelligence, data analysis, Power BI, and project delivery to transform complex data into actionable insights and data-driven solutions. Eager to leverage my experience supporting government and corporate projects to solve business challenges, improve decision-making, and deliver measurable impact through data and AI.

WORK EXPERIENCE

Associate Project Manager | Data Analytics & BI

09/2024 – 12/2025

Beyond Company, Jeddah, Saudi Arabia

- Executed government and corporate projects, ensuring adherence to defined scope, strategic objectives, and schedules.
- Crafted comprehensive technical and financial RFP proposals (Etimad Platform), incorporating pricing, scope definition, and meticulous requirements analysis.
- Developed interactive dashboards, reporting systems, and professional presentations utilizing PowerPoint, Power BI, Excel, and Smartsheet.
- Facilitated technical coordination, meticulous documentation, and enhanced cross-team communication.
- Designed and managed the Filtration System for competition-based projects, enabling participant registration, structured screening, criteria-based shortlisting, and streamlined competition management workflows.
- Developed a multi-stage Employee Evaluation System with peer, self, and management assessments, using the ChatGPT API to summarize qualitative feedback.

Artificial Intelligence Intern

01/2024 – 03/2024

Smart Methods, Jeddah, Saudi Arabia

- Designed and developed robotic control systems using Arduino IDE
- Worked with ROS on Ubuntu for robotics development.
- Integrated AI-based functionality into robotic systems.
- Implemented Arabic language recognition to enable Arabic interaction/communication with the robot.

EDUCATION

Bachelor of Science in Artificial Intelligence

09/2019 – 07/2024

University of Jeddah, Jeddah, Saudi Arabia.

SKILLS

Technical Skills: Data Cleaning & Preprocessing, Statistical Analysis, Feature Engineering, KPI Tracking, Reporting, Power BI, Excel, SQL - PostgreSQL, API Integration, Smartsheet Automation, Vercel Deployments, Machine Learning Algorithms, Computer Vision, Python - Pandas, NumPy, Matplotlib, Scikit-learn, Node.js, React.js

Soft Skills: Problem Solving, Critical Thinking, Attention to Detail, Communication Skills, Time Management, Presentation Skills

PROFESSIONAL CERTIFICATES

Supervised Machine Learning

2024

DeepLearning.AI & Stanford University, Online
